

Enhanced cooperation on Climate Friendly Development in **Sino-Singapore Tianjin Eco-City Project**

A first tangible demonstration of our upgraded
'All-Round, High-Quality and Future-Oriented'
partnership between Singapore and China

Green Growth

Unlock new growth opportunities from a low-carbon economy

Low-Carbon Living

Promote climate-friendly urban development and lifestyles

Ecological Resilience

Strengthen ecological systems in support of nature-based climate action

Innovation & Talent Development

Drive innovation and capability-building for low-carbon solutions through R&D and talent exchanges

Governance

Public service exchanges on policy and governance mechanisms for achieving low-carbon development
